For almost 100 years, the family-owned company Steba has been producing household appliances “Made in Germany”. In 1919, the brothers Steinberger founded the “Electric Cooking and Heating Apparatus Bamberg” under the trademark “Steba”. Everything that makes everyday kitchen life easier, such as kettles, toasters, hotplates or irons have been developed and manufactured by Steba since 1919.

A certificate of the BLGA Nuremberg from the year 1924 confirms for the self-made radiators an “exquisite” quality, which was not exceeded by any company known to the Bavarian state trade institution until that time. Since the mid-1930s, the Steba brand, now headed by the Müller family, has become increasingly established on the market with the right feel for technical innovations and trend-setting ideas.
Until 1950, conventional metalworking has been the focus of daily work. So, urgently needed everyday objects, such as pots or shoe fittings, have been produced. The agricultural food steamer produced since the 1920’s, had its heyday and was used a lot in agriculture. Nevertheless, the company never lost the incentive to produce innovative and qualitative appliances for the modern household. In 1955, the extensive product range was presented at the Hannover Fair for the first time. This was the basis for developing and manufacturing household appliances for well-known companies in the industry from 1970 onwards. Thus, one quickly reached the capacity limits in Bamberg city center and moved the newly built company and production buildings in the district in 1973.
This statement remains true to the third-generation managed family business. Starting with agricultural food steamers, as well as household irons, toasters and kettles in the 20s to 50s, Steba today, in 2019, stands for a broad and modern product range with its strategic product categories of sous-vide cookers, electric BBQs, fryers, baking ovens and much more. At that time, as well as today, some articles are produced by long-standing and quality-conscious employees in our factory in Strullendorf near Bamberg and are exported to more than 45 countries worldwide. Steba has developed into a leading company for electric BBQs, sous-vide cookers and raclettes and today stands for high quality standards and service through its “Made in Germany” production. So, in 100 years Steba has become what it is today.
Thank you for your trust!

**STEBBA Air Purifier - effective filtering:**

**Fine dust:** Finest dust particles that cannot be seen with the naked eye are generated, for example, by diesel engines, heating systems, chimneys, cigarette smoke, printers or mechanical abrasion.

**Problem:** Because of its minimal size, fine dust penetrates almost unobstructed through the mucous membranes and accumulates in the body. This can cause inflammations and allergies. It is proven that the load in rooms is many times higher than in the open air.

**What can be done against fine dust in rooms?** In addition to the regular ventilation and vacuum cleaning of the rooms, especially the use of an air cleaner with HEPA filter significantly decreases the fine dust load. The STEBA Air Cleaners can do this even more efficiently, as they remove particles down to the site of viruses.

**Air Cleaner**

- 4-stage filter against particulate matter, pollen and microbes:
  - Pre-filter
  - HEPA filter
  - Activated carbon filter
  - Cold catalysis filter
- Suitable for allergics
- Ionisation separate switchable
- 3 different speeds
- 12 h timer
- Large LCD
- Remote control
- For rooms up to ca. 30 m²

**LR 5 ELEKTRONIK**

### Humidifier

- Ultrasonic water vaporization
  - min. 250 ml/h to max. 400 ml/h
- Air humidity control 45 up to 90 %
- 3 speed levels
- Economy level: 30 W
- Water preheating possible
- 12 h timer
- Large LED display
- Touch control
- Including ceramic filter
- For room sizes up to approx. 25 m²
- Very silent (<35 dB(A) at level 1)
- Remote control

### Humidifier

- Ultrasonic atomisation
  - min 180 ml/h to max. 400 ml/h
- With ionisation facility
- Air humidity control
- 3 speed levels
- Eco setting 40 W
- With water pre-heating facility
- 12h timer
- Remote control
- Large LCD display
- Temperature display
- Including ceramic filter
- For room sizes up to approx. 30 m²

### Humidifier

- Ultrasonic water vaporization
  - min. 250 ml/h to max. 400 ml/h
- Stepless speed control
- Economy level: 30 W
- Including ceramic filter
- 3.5 ltr water tank
- Safety shut-off when lack of water
- For room sizes up to approx. 20 m²
- Very silent <35 dB
Pedestal Fan

- Durable high-performance motor
- High level of continuous air output: 70 m³/min
- 3 power settings
- Oscillating
- Silent: 63 dB
- Timer for 1 - 7 hours
- 3 programs:
  - Works on level 1 - 3
  - Sleeping mode
  - Eco-mode
- Remote control
- Air outlet diameter: 38 cm
- Adjustable tilt angle
- Secure footing

- Max. Timer
- Remote control

Power: 54 W (230 V ~)
Weight: 5.7 kg
Dimensions (HxWxD): 134 x 45 x 42 cm
Housing: White
Unit/pallet: 4/30
Article-No.: 35.50.00

Fan

- TUBE design
- Unique swirling technology
- Jet-shaped flow of air
- Extremely long throw: 10 m
- High level of continuous air output
- 3 power settings
- Air outlet diameter: 25 cm
- Pivoting - 15° - 90°
- Convenient carry handle
- Secure footing
- Extremely effective air circulation

VT 3 STORM-TUBE

Carbon Radiant Heater

- Energy saving and efficient
- Durabel - up to 6000 hours
- With oscillation facility
- Very silent
- 2-setting carbon heating element 500 W / 1000 W
- Double insulation
- Safety shut-off using tumbler switch
- Overheating protection
- Handle
- Cable storage
- Warms bodies and material

Ceramic Heater

- Ultra-thin ceramic heater with up to 30 % higher outlet temperature
- Energy saving and powerful
- Touch control, LED-Display, 12 h timer
- With oscillation facility
- Very silent
- 2-setting ceramic heating element 1300 W / 2500 W
- Room thermostat with infinitely variable temperature control (15 - 35°C)
- Washable dust filter
- Double insulation
- Safety shut-off using tumbler switch
- Overheating protection
- Remote control
- Handle
- Detachable glass base
- For rooms up to approx. 30 m²

CH 1 ECO

- Power: 1000 W (230 V ~)
- Weight: 2.5 kg
- Dimensions (H/W/D): 69.5 x 38 x 24 cm
- Housing: Black / Grey
- Unit/pallet: 3/36
- Article-No.: 39.31.00

KH 7

- Power: 2500 W (230 V ~)
- Weight: 4.5 kg
- Dimensions (H/W/D): 61 x 27 x 27 cm
- Housing: Black
- Unit/pallet: 2/24

Heating with Steba ceramic heaters

The high power density and energy efficiency of the ceramic heaters provide up to 30% higher output temperature and minimized by the power consumption noticeably.

The desired room temperature is reached more quickly. The heating elements of ceramic are extremely durable and thus offer the device a very long service life. With overheating protection and automatic tilt-switch-off and the maximum safety is of paramount importance.

With modern shapes and colors, the heaters are also a visual highlight and can be easily integrated into any living room.
Fan Heater

- Fast heater in high-tech design
- Silent
- 4 stage switch: off / cold air / warm air (1200 W) / hot air (2000 W)
- Room thermostat for stepless temperature control
- Double isolation
- Overheat protection
- Cable storage
- IP21 (protected against drip water)
- For rooms up to 24 m²

Elegant fan heater
- 4 stage switch: off / cold air / warm air (1200 W) / hot air (2000 W)
- Room thermostat
- Double isolation
- Overheat protection
- Cable storage
- IP21 (protected against drip water)
- For rooms up to 24 m²
